PROFESSIONAL SUMMARY

Highly motivated and skilled front-end developer with a proven ability to translate complex requirements into visually appealing and intuitive web experiences. Expertise in HTML, CSS, and various CSS frameworks (TailwindCSS) allows for efficient and elegant implementation of designs. Deep understanding of ReactJS, including navigating both class-based and functional components. Proficient in managing application state with Redux and utilizing ContextAPI. Experience integrating with third-party APIs for seamless data interaction. On the backend I'm currently working on Node.js, Express.js, MongoDB, and Mongoose.

SKILLS

- Front-End Web Development
- JavaScript
- TypeScript
- HTML
- CSS
- TailwindCSS
- ReactJS
- React-Router
- Axios
- TanStack Query
- RESTful APIs
